

User recieves the coffee they ordered in a to-go cup.

The top of the cup says NEWS! and displays the day of week, date and time.

User checks time, starts sipping their coffee. Either they take off the lid or leave it on.

If lid is off, date and time will display on inside of cup and 'float' on lliquid`

If lid is on, nothing changes.

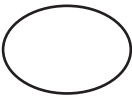

User Drinks their coffee.

The bottom of the cup displays a headline along with the logo of the news source.

User throws cup into future recycling bin which cleans the cup and sends it back to the cup plant.

NEWS!
Tues 4/4 9:27AM

Wait until I've had my coffee.

NEWS! Tues 4/4 9:27AM

A rocket landed on Mars at 2:31 this morning.
